

CRIMINAL JUSTICE: B.S.

The Bachelor of Science degree in Criminal Justice is a 124-credit program designed to prepare students interested in or currently working in public service, law enforcement, corrections, emergency services and community leadership positions.

The Bachelor of Science (B.S) in Criminal Justice includes a set of required courses that all students must take, along with SUNY General Education and other academic requirements (<http://catalog.esc.edu/undergraduate/earning-undergraduate-degree/>), in order to be eligible to receive a degree. The required courses for programs in Criminal Justice can be found on the "Program Details" tab. Students will work with a faculty mentor to develop a degree plan that matches their goals and meets all program requirements. Students should speak with their mentor to see if any credit earned through individualized Prior Learning Assessment (iPLA) (<https://www.esc.edu/degree-planning-academic-review/prior-learning-assessment/individualized-prior-learning-assessment/>) or Professional Learning Evaluation (PLE) (<http://catalog.esc.edu/undergraduate/earning-undergraduate-degree/#text>) might fulfill these course requirements. Courses are offered online, through independent studies, or through a blended approach.

The contemporary criminal justice environment is continuously evolving in response to critical social needs and new approaches to policing, addressing criminal behavior, and community/government relations. This program provides a rigorous examination of the social, economic and cultural contexts of criminal justice today from all perspectives. Students will become more effective in their roles within criminal justice and related fields.

Degree Planning Resources

- Degree Planning and Assessment (<https://my.esc.edu/academics/AcademicsDegreePlanningAndAssessment/Pages/default.aspx>) (login required)
